

University of Scranton  
Institutional Biosafety Committee

Application to use Human Blood, Blood Products, Body Fluids or Tissues  
in Teaching Laboratory

This application is to provide the Institutional Biosafety Committee (IBC) with the information it needs to review and evaluate laboratory exercise, to ensure that the procedures are consistent with the University Biosafety Policy and to ensure that faculty, staff and students are properly trained to work with and/or are protected from exposure to biohazardous materials in the media of
